

Amendment to the recommended Town of Farmington Comprehensive Plan

The Town of Farmington's Recommended Comprehensive Plan is being amended prior the Public Hearing for the following reasons:

1. The Plan Summary was shortened by deleting statistical data and only including the goals and objectives from eight of the nine elements to make the summary more "user-friendly".
2. In some of the elements, the terminology of an objective, policy or program was adjusted.
3. Repetitive goals, objectives, policies and programs in the nine elements were eliminated
4. The relationship between the Town's Comprehensive Plan and Washington County's Comprehensive Plan was further clarified.
5. The Hamlet Growth Areas Boundaries on the east side of Fillmore were extended.
6. The amount of land that can develop along the edges of the Hamlet Growth Area was further defined.
7. A more detailed explanation is given regarding the amount of residential development that can occur in rural areas before a Land Use Plan amendment is required.
8. Other minor adjustments and corrections have been made to wording of the plan based on more recent information.

A copy of the amended Plan can be viewed on the Town website, www.town.farmington.wi.us, at the Farmington Town Hall during regular office hours and at the Kewaskum and West Bend Public Library.
